NEWS RELEASE

January 21, 2010

CONCESSIONS AND RETAIL FOR NEW TERMINAL ANNOUNCED

The San Antonio City Council approved new concession agreements with five firms. This action clears the way for the San Antonio International Airport to move forward with opening the new Terminal B with a whole host of new food & beverage and retail storefront concepts.

The approved ten-year concession agreements will allow five different companies to open and operate 10 different retail, restaurant and fast food operations within the new Terminal B. In addition, three new news and gift shops will go into the existing Terminal 1 during 2011. Terminal 1 will be renamed Terminal A when Terminal B opens in November 2010.

Host International, Inc. will operate six "News & Sundries" stores under either San Antonio Express-News Café or Texas Monthly concepts. Host International Inc. will also operate a Rosario's Mexican Café Y Cantina, serving traditional Mexican and Southwestern fare. This is a familiar restaurant to travelers, as it is currently operating in Terminal 2, which will be demolished in 2011. In addition, Host will manage and operate a café and coffee shop, R Sala Bebida Botana Bar/Starbucks Coffee.

JDDA Concessions Management, Inc. will operate two different concession concepts in the new Terminal B Food Court. The first is a Big 'z Burger Joint, serving gourmet burgers, fries and onion rings to passengers. This will be the second Big 'z in San Antonio, complimenting their current location at 1604 access near Heubner Road. The second concept is a coffee shop, Sip Coffee & Espresso Bar serving coffee, espresso and snacks to travelers.

HDS & Partners at SAT will operate the "Stars of San Antonio" specialty retail and concessions concept. They will specialize in selling local San Antonio imaged merchandise, snacks and gifts.

Several other concessionaires were chosen to bring new concepts to San Antonio International Airport's new Terminal B Food Court. Sbarro – Seven hills will bring the nationally known Sbarro's Italian restaurant. Sbarro's will serve pizza, pasta and salads to hungry passengers and guests.

In addition, Edwin Enterprises will operate the fourth Charley's Grilled Subs in the San Antonio area at the new Terminal B Food Court. Hungry travelers will be able to choose hot subs, grilled salads and gourmet fries.

"We welcome the added variety and new array of food and retail concession offerings at the San Antonio International Airport," said Aviation Director Frank Miller. "Some of these concessions and store fronts are familiar to our airport travelers and some are new. But all are a great fit for San Antonio, and will provide our guests and travelers the first-class service they deserve."

It is estimated that these new contracts will generate approximately \$23 million to the airport over 10 years.
